WHAT HAPPENS NEXT?

Within 1-2 business days, an Intake Specialist will call or email you to discuss the problem in more detail. If the issue fits within our priorities, our Intake Specialist will make a referral to our legal team or an appropriate member of our staff. If DRLA cannot help with the issue, the Intake Specialist will provide any information possible & make referrals to other organizations that may be able to help.

HOW DOES DISABILITY RIGHTS LOUISIANA CHOOSE WHETHER TO TAKE A CASE?

DRLA has the resources to serve a limited number of clients. In all cases accepted for legal representation, the issue in question must be directly related to the individual's disability. In deciding whether we can provide legal representation, we also consider whether the issue falls within one of DRLA's priority areas, the merits of the claim, and the availability of DRLA resources.
